**A surprising look into
where our children
spend their time!**

Our premise is simple, schools cannot RAISE kids...parents can! Parent To Parent 2000 trains the parents to do the job!

What Is Parent To Parent 2000?

Parent To Parent 2000 is a national program that networks and activates parents. It consists of a series of short, one-hour training sessions, which can be delivered throughout the school year. The sessions are small group (10-12 people), and provide skills that help parents deal with the culture our children are immersed in.

The best part is that Parent To Parent 2000 is **driven by the parents**. The program is facilitated **by parents...to parents!**

The outcome is simple. Parents learn that the school cannot RAISE their children. They have to be proactive when dealing with the conflicting messages communicated in today's adolescent culture.
